

Name: Jefferson Duarte Ramos Dos Santos

Role: Front end developer. Location: Rio de Janeiro/BR

About me:

I'm a front-end developer passionate about technology with solid knowledge in full stack development using JavaScript/TypeScript. For the past two years, I have dedicated myself to constant study and practice to improve my skills in this area.

During my learning journey, I worked on several personal projects where I was able to apply my knowledge and improve my proficiency in technologies such as HTML, CSS and JavaScript. These projects range from creating responsive and interactive websites to developing dynamic web applications.

My passion for programming is driven by the desire to create innovative and functional solutions that meet users' needs. I have an eye for detail and am always on the lookout for improvements and new trends in the field of front-end development.

If you're looking for a dedicated, motivated front-end developer with full stack JavaScript/TypeScript skills, I'm confident I can make a significant contribution to your company's success. I'm excited to explore opportunities where I can apply my knowledge and help build subscribed web experiences.
